

ODP 0-319
19 June 1980

MEMORANDUM FOR: Deputy Director for Administration
FROM: Bruce T. Johnson
Director of Data Processing
SUBJECT: ODP Report for Week Ending 18 June 1980

SAFE

On 12 June [REDACTED] SAFE Project Manager, and [REDACTED] Assistant General Manager for Projects, paid courtesy visits to various NFAC officers to emphasize [REDACTED] commitment to the SAFE Project. They also met various high level DIA officials during the course of their stay in Washington.

The Coaxial cable installation contractor completed installation of the trunk cable on the ground floor of the Headquarters building. The contractor has begun installation of riser cables in the electrical closets on all floors of the building. [REDACTED]

ADSTAR

On 11 June the Conversion Subsystem (CSS) passed the performance portion of the CSS Acceptance Test. [REDACTED]

DDO Minicomputer Installed

The IBM 4331 mini system for DDO has been installed in GB-0702, Headquarters. Power is now available. The air conditioning unit is scheduled to be installed by 1 July 1980. [REDACTED]

Support to OPPPM

OPPPM and ODP personnel participated in a test demonstration of the Electronic Vacancy Notice System on 12 and 13 June 1980. OPPPM accepted the system and began using it operationally on 17 June. [REDACTED]
